Surveys, Internal Communication and Positioning

We work with words.
We work with you.

HEALTH CARE

A New Jersey-based pharmaceutical firm developed an investigational Alzheimer's disease medication and required assistance with patient recruitment for their U.S. clinical trial. Impact was brought on board to tell their stories and attract eligible clinical trial participants via traditional, digital, social and grassroots communication vehicles. In the first two months of engagement, we obtained local interviews for investigators and the company CEO. We also secured 156 Facebook followers within 60 days of launching the page. Impact created and managed social media accounts and digital assets including the creation of videos, ads and other materials.

MANUFACTURING

A glass manufacturer needed a fully integrated strategic communication plan to launch a new product, reach a new audience and rebrand a 100-year-old company. Impact developed and executed the branding strategy that launched a traditional glass fabricator into the world of creative printing on glass for the architectural and design communities. Impact developed new sales and marketing materials, trained the existing sales force and assisted leaders in effectively promoting and selling their new positioning statements.

ECONOMIC DEVELOPMENT

Newark, NJ had a story to tell and Impact told the world. We created a strategic plan and then identified, updated and shared stories that made people feel good about Newark and better about Newark's future. Seven of our targeted campaigns, including Mayor Baraka's Model Neighborhood Initiative, reached more than 1 billion people online. Additionally, we secured more than \$1 million worth of media coverage in less than 12 months, and organically acquired more than 2,000 Facebook fans and 1,000 Twitter followers within six months of engagement via content that we curated, posted and managed.

SMALL BUSINESS

A global media marketing company dedicated to supporting and connecting professional multicultural women, recognized that minority women-business owners lacked the access to capital that was generally afforded others. Leadership decided to act – via training opportunities and a \$25,000 business pitch competition. Impact was essential in bringing the idea to fruition – helping fine-tune the concept, producing workshops, promoting the program and securing media coverage. The campaign reached millions of individuals in just 45 days and secured more than \$50,000 of publicity in major outlets.

EDUCATION

The United States Merchant Marine Academy required new, "eye-catching," recruitment materials for high school students, their parents and guardians to pique their interest in learning more about the Academy. The updated materials needed to attract and encourage women and minorities, as well as mainstream students to matriculate, graduate, then serve as our leaders in the maritime industry and military. Impact conducted a thorough research audit to include focus groups and interviews. The results led to a fully-integrated admissions package that included a new brand-image, creative print, video and digital materials.

ARTS AND ENTERTAINMENT

Impact provided oversight and assisted in executing the final phase of an international film festival. Our production team produced the live awards ceremony and secured international media coverage for 100 films from 12 countries over three days. We coached the team, when and where needed, and provided strategic, public relations support. In all, we secured nearly 50 million online views and media coverage with a publicity value in excess of \$500,000. This project yielded a 99,000-percent return on investment. Yes - 99,000% ROI.
